

# Pallet RATIO

## Efficient transportation and storage of scaffolding frames

- Suitable for forklift and crane
- Stackable
- Hot dip galvanized
- holding capacity:
  - 41 frames for Schnellbau scaffolding
  - 44 frames for Doppelgeländer scaffolding
- Size:
  - Width: 775 mm
  - Length: 2210 mm
  - Height (stand) 400 mm
  - Height (with frames) 2240 mm
- Required material:
  - frames for Schnellbau
  - 2 horizontal braces 2,5 m
  - frames for Doppelgeländer
  - 1 connecting tube 2,21 m

You can avoid inclination that can cause falling of loose frames during loading (unloading) by using timber supporting base on one side unterlage) .
